

COMMON

More than one application can use the same username and password.

LOGIN

That means your username and password must be protected at all cost.

APPLICATION

Applications like WebX that intergrates with SAP and WFM that integrates with Sage all have the same login requirements.

MANAGER

Access set up is thus made super easy. You just need to make sure your access application form includes all the functions you need.

WEBX

The Finance department uses WebX to integrate with SAP and the real world.

WFM

The work force administrators use WFM to schedule personnel while the app also integrates with Sage and the payroll department.

MDR

The Mobile Device Register keeps record of sim cards, cellphone and more.

INTERNAL

Other internal apps where asset management and expense claims are also linked through CALM.

1

OPEN CALM

Enter CALM using this link.
<https://calm.proteacoin.co.za/>
Be sure to create a shortcut on your desktop.

2

LOG IN

Use your Bidvest Protea Coin username and password. This also unlocks your Bidvest Protea Coin computer.

3

CHOOSE APPLICATION

Ensure that you choose the appropriate application to work on. Choose WebX for financial data and WFM for personnel data.

4

SET ACCESS

If you find that you don't have the functions set up on the application you need to use, simply send an email to Helpdesk@proteacoin.co.za and follow the instructions.
